Byzance

TRADITIONAL

STARTING with hand-hammering and following with hand lathing in Turkey, the word 'traditional' accurately describes their hand forged shape and deeply rooted sound. The Traditional series features our broadest voice for Byzance, with a wide variety of sizes and weights that blend into any musical setting.

Made in Turkey from B20 bronze, hand-hammered into shape, narrow blade lathing, and traditional finish.

Byzance

BRILLIANT

BUILDING on the Traditional line, Byzance Brilliant cymbals are polished to create a mirrorlike finish for a stunning look on stage. The sonic result is a slightly refined sound with a smoother, lower frequency response and added shimmer. The Heavy Hammered models feature extra weight for cut and volume.

Made in Turkey from B20 bronze, hand-hammered into shape, narrow blade lathing, and brilliant finish.

Byzance

DARK

HAND-HAMMERED and completely unlathed, Byzance Dark cymbals immediately hit the sweet spot with crashes that open up just enough, then get out of the way. The hihats and rides provide clarity, cut and volume, along with a prominent dark tone brought out by their unique surfaces.

Made in Turkey from B20 bronze and hand-hammered into shape. The surfaces here are left unlathed creating the dark finish except for the Spectrum Hihats and Ride which are partially lathed in a spiral pattern.

BIG APPLE DARK RIDES

Dry articulation and crashability together with a bell that is perfectly suited for small rooms and clubs.

20" B20BADAR 22" B22BADAR 24" B24BADAR

BIG APPLE DARK TRADITION RIDE

22" B22BADTR

BIG APPLE DARK TRADITION RIDE LIGHT

Featuring a small bell and steep bow combined with an unlathed top create a "woody" stick definition. The fully lathed bottom allows the cymbal to open easily for lush crashes while providing a warm bed of undertones.

22" B22BADTLR

RAW BELL RIDES

Outstanding ride cymbal with excellent sound features and an extraordinary dark look. Untreated raw bell creates a fat, projecting sound that has a wide spectrum.

20" B20RBR 22" B22RBR

SPECTRUM RIDE

Rodney Holmes' signature ride

Extremely versatile ride due to the partial lathing, which allows the cymbal to balance a dry attack and light wash in a medium weight.

22" B22SR

Byzance

VINTAGE

CRRAFTED with age in mind, the Vintage voice within Byzance has unique features that simulate the aging process of a cymbal to couple relic sounds with modern appeal. The Vintage line was born from the Sand Ride, a flagship cymbal developed with Meinl Cymbals artist, Benny Greb; now, it includes a wide array of cymbals which have helped to define the Meinl sound.

Made in Turkey from B20 bronze and hand-hammered into shape. Sand models feature narrow blade lathing and a sandblasted finish, whereas Vintage Pure models are unlathed and raw.

EQUILIBRIUM HIHAT

Matt Garstka's signature hihat

Various areas sandblasted and lathed to achieve an overall balance of dryness and sustain, as well as warmth and cut. Six holes around the bottom bell increase foot chick projection.

14" B14EQH

EQUILIBRIUM CHINA

Matt Garstka's signature china

20" B20EQCH

EQUILIBRIUM RIDE

Matt Garstka's signature ride

A thicker cymbal overall. Thinned out edge to give it the desired crash-ability while maintaining a nice stick attack with pleasing overtones for jazz-like patterns that are common in progressive music.

SAND CYMBAL SET

Benny Greb's signature cymbals

The Sand Set is a versatile selection of Benny's most popular signature cymbals. The set includes a pair of 14" Sand Hats, an 18" Sand Thin Crash, and a 20" Sand Ride. All three cymbals have a wide range of applications to meet many drummer's playing styles as well as musical genres.

BV-141820SA [14" Sand Hat + 18" Sand Crash Thin + 20" Sand Ride]

Byzance

EXTRA DRY

Byzance
EXTRA DRY

ALTHOUGH they appear to be raw, Byzance Extra Dry cymbals are extremely refined. Designed to be dry, fast, trashy, and low, this is one of the most intriguing voices within Byzance that attracts many drummers. The crashes, splashes, and china cymbals all explode and unleash a gritty texture from within, while the hihats and rides are crisp in definition.

Made in Turkey from B20 bronze, hand-hammered into shape, and raw finish. The bottom side of hihats, crashes, splashes and chinas are lathed, but the rides are left unlathed except for the Transition Ride which is lathed and polished on the bottom to a brilliant finish.

TRANSITION RIDE

Mike Johnston's signature ride

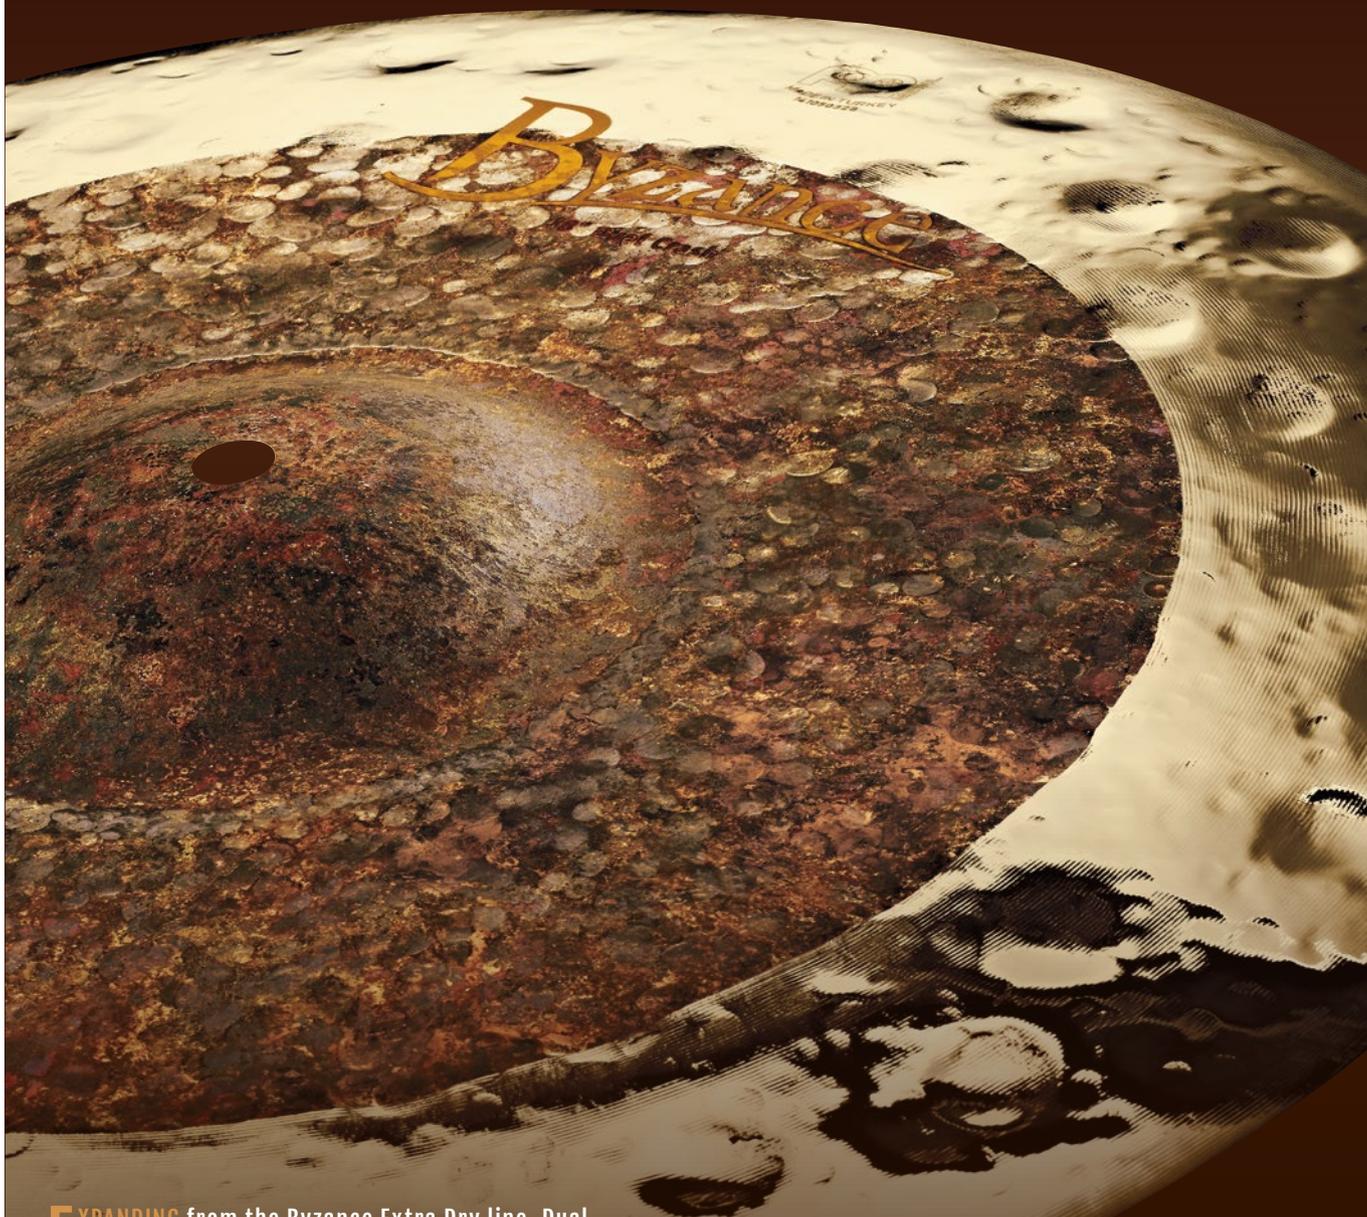

This ride has a brilliant, lathed bottom combined with an unlathed top that is slightly polished for a unique look. Opens easily for crashing, with the bell very much integrated in the overall sound.

21" B21TSR

Byzance

DUAL

EXPANDING from the Byzance Extra Dry line, Dual cymbals have quickly risen in popularity and become instantly recognizable for their unique look and sound. To start, the center is raw, bearing hand-hammered markings, while the edge is lathed and buffed to a brilliant finish. The sound is similar to the look: trashy, earthy and low at first, ending with a flash of explosive brilliance.

Made in Turkey from B20 bronze, hand-hammered into shape, raw finish in center, and narrow blade lathing with brilliant finish on edges only.

What is a Multi-Trash cymbal? This versatile cymbal makes an excellent stand-alone trash crash or extra large splash and easily stacks with another cymbal providing even more options. It can replace the top or bottom hi-hat cymbal for a trash hat effect or be combined with the top hi-hat cymbal for a crunchy tri-hat effect.

xx **FOUNDRY RESERVE** xx

MADE IN TURKEY

A LIMITED collection of our finest hand-made Turkish cymbals, Byzance Foundry Reserve showcases the stunning, sonically rich works of art our cymbalsmiths create. Tonality and nuance are added with extra hand-hammering, resulting in deep craters that riddle the surfaces. Coupled with wide blade lathing, these cymbals produce a clear, pronounced stick-attack note over a lush bed of even undertones.

Made in Turkey from B20 bronze, hand-hammered into shape, wide blade lathing, and traditional finish.

Each Byzance Foundry Reserve comes with a pair of Meinl Stick & Brush Standard 5A Drumsticks, a pair of 100% cotton handling gloves, a signed certificate of authenticity, and a personal letter from Mr. Reinhold Meinl.

PURE ALLOY
MEINL
MADE IN GERMANY
12" TRASH CHINA

PURE ALLOY cymbals sonically bridge the gap between the darker and brighter cymbals in Meinl's lineup, filling the middle ground. Their shimmering, smooth sounds cut with agility and have a full range of tonality with medium sustain making them perfect for all dynamic levels. The crashes and rides have a perfect mix of effortless strength and a balanced wash, while the hihats carry a clean, refined definition.

Made in Germany from Pure Alloy bronze and hammered into shape. The traditional models feature pinpoint lathing creating the traditional finish.

PURE ALLOY

 MEINL
 MADE IN GERMANY
 CUSTOM

Smoked-bronze top paired with a brilliant bottom

PURE ALLOY CUSTOM is a unique series that offers smooth tonality, a great feel under the stick, and a distinctive look on any drum kit. They produce a slightly softer attack with a warmer body and faster decay, while maintaining the bright shimmer and sustain that Pure Alloy is known for.

Made in Germany from Pure Alloy bronze and hammered into shape. To make these cymbals visually stand out, we applied a finish on top called custom smoked-bronze and polished the bottom to a brilliant finish.

DUAL SERIES

THERE is more to the Classics Custom Dual series than you may think. These cymbals are almost hypnotic, and feel at home across many styles. The lathed and polished edges have a flexible feel and create a fast response when crashed. Additionally, the dark center powers these cymbals to produce a quick punch with a complex character. The resulting sound is a harmonious blend of warmth and explosive response that will feel at home both in the studio and on stage.

The full assortment of hihats, crashes, rides, plus a splash and china is rounded out with a trash splash, trash crashes, and a trash china to offer drummers all of the necessary voicings for a wide range of diverse musical styles. With an appearance as striking as their complex sound, Classics Custom Dual cymbals will add another layer of sophistication to your setup.

Made in Germany from B12 bronze alloy, lathe formed profile, extra hammering, raw finish in center, wide blade and pinpoint lathing with brilliant finish on edges only.

— CUSTOM —

DARK SERIES

AGGRESSIVE and loud, but with a dark and warm tone, Classic Custom Dark cymbals are like nothing you have seen or heard before. Here, the cutting nature of Classics Custom is met with a shadowy and intense wash that envelops your playing with a complex, dark tone. The wide assortment of models and cymbal types are sure to help you find your sound whether you are adding on or building a complete set.

Made in Germany from B12 bronze alloy, lathe formed profile, extra hammering, wide blade lathing, and dark finish.

*Why do trash crashes have holes?
By removing material from a cymbal, sound waves travel quickly and escape from the cymbal, creating the fast decay these cymbals are known for. The size, shape, and placement of the holes will also affect how trashy or dark the end result will sound.*

— CUSTOM —
20" Medium Ride

BRIGHT and focused with a shimmering response, Classics Custom is best suited for drummers who want cymbals that speak with a clear voice. The mirrorlike finish looks incredible under stage lights and adds brilliance to the sound. With so many models to choose from, the extensive lineup provides plenty of options that will allow you to find the missing cymbal you need or build the foundation for a whole new setup.

Made in Germany from B12 bronze alloy, lathe formed profile, mirror smooth surface, and brilliant finish.

The brilliant finish on all Classics Custom cymbals adds a shimmer and brilliance both to the sound as well as the look.

CLASSICS CUSTOM

EXTREME METAL SERIES

MADE for drummers who need a tough cymbal that will endure a punishing set night after night while delivering plenty of volume and cut. Exactly as their name suggests, they are an extreme version of Classics Custom. They have the same brightness, clarity, and shimmer, but with a double-shot of punch and volume for more power and precision to climb above the roar of distortion-charged amps.

Made in Germany from B12 bronze alloy, lathe formed profile, mirror smooth surface, and brilliant finish.

Ever wonder why these cymbals are called 'Extreme Metal'? It's due to the extreme nature of volume and clarity produced by their heavier weights across all models in addition to specific features, like the extra-large megabells on ride cymbals. An often overlooked feature is the additional deep hammering on each cymbal. When we developed this line, we did not want to just create louder cymbals. Instead, our goal was to create louder cymbals that were still musical. By adding the extra hammer blows, we were able to darken the tonality enough to counteract the heavier weight's increased brightness. The result is a line of full-sounding cymbals with power, volume, and clarity.

THE ARTIST CONCEPT MODELS

WORKING closely with some of the most creative drummers on the planet, Artist Concept Models were born from collaborations with our Meinl Cymbals artists to develop new and unique sounds. Each process involved combining different cymbals to create effect stacks or auxiliary hihat which best met that artist's vision. In some cases, multiple series or alloys were used to find the perfect result. Read on to find out what the artists themselves have to say about their individual concept model.

BENNY GREB CRASHER HATS

"I wanted something that was super short, dry, clear and high frequency but still very dynamic that could fulfill a whispering shaker-like role in the music. Tough to get! So we had to create something completely unique. Four separate cymbals sandwiched together. They have different shoulders so they collapse against each other at every hit. The result is incredible. A very unique sound that blends beautifully with ghost notes and other subdivisions, but can also make a very percussive statement. They are part of my sound. I absolutely love them!"

6"/6" AC-6CRASHER 8"/8" AC-CRASHER
[With X-Hat Auxiliary Hihat Arm]

MATT GARSTKA TEMPORAL STACKS

"I mainly use the Temporal Stacks within complex groove and chop patterns. Their dry, trashy, staccato sound allows them to get in and out of tight spaces quickly. The stacks can absolutely be used as timekeepers, but the fun lies in orchestrating these stacks into rhythmic patterns which will for sure open up a lot of creativity."

FAT STACK

"This stack cuts through the mix with a crunchy bite. With no ring the sustain is dry and pleasing to the ear. Its trashy quality is maintained through a wide variety of tensions, with my personal favorite being a light tension that gives its Fat Stack namesake."

8"/10" AC-TE1 10"/10" AC-TE2

18"/16" AC-FAT

ANIKA NILLES DEEP HATS

"What I really like about my Deep Hats is that they have so many musical applications. They fill the sonic gap between my main hihats, and my crashes. I play them half open as a time keeper, very similar to crash-riding, however the Deep Hats sound softer and more articulated. That is something I prefer."

18"/18" AC-DEEP [With X-Hat Auxiliary Hihat Arm]

Thomas Lang

THOMAS LANG SUPER STACK

"Its fierceness cuts through any wall of sound and allows you to slice through even the most crowded soundscape. When played softly at the edge, it produces a wide and washy sizzle, perfect for accents and punctuations at a more moderate volume. When played with the stick tip at the shoulder, its short and piercing sound is reminiscent of a trashy hihat. The Super Stack is super loud, super fast, and super short. It allows the drummer to override and supersede even the most dense frequency chaos and make a clear and concise percussive statement in every musical situation. This is the most versatile stack combination you'll find."

18"/18" AC-SUPER

MATT HALPERN DOUBLE DOWN STACK

"To me they are the culmination of the best sounds I've been able to produce and utilize in both live and studio settings. You can configure the stack so it cuts through the loudest of music in the loudest of venues, or you can change it up and use it in the most dynamic of musical situations."

Matt Halpern

17"/18" AC-DOUBLEDOWN

LUKE HOLLAND

BABY STACK

"My goal with the Baby Stack was to create a combo that I could use in any setting; from metal to electronic to hip-hop. The beauty of the Baby Stack is its ability to cut through tremendously or sit back and be casually articulate. It's incredibly dynamic, and that's why I will always use it in every show, recording, or video I do."

Luke Holland

BULLET STACK

"Quick as a bullet, hurts like one too. Perfect for when you need to cut and make your point. What I love about the Bullet Stack is that no matter how quickly you need it to be present and then disappear, it always delivers."

10"/12" AC-BABY

12"/16" AC-BULLET

9eneration X

A SELECTION of small and unconventional cymbals, the Gen-X cymbal line is primarily used for accents and effects. These cymbals can find a home mixed with any of our other cymbal lines for a diverse setup or creation of a stack.

Made in Germany from assorted alloys, lathe formed profile, additional hammering, with various lathing and finishes.

FX HATS

Available in 8" and 10" pairs, the FX Hats were created to provide a high, cutting, staccato attack when closed tightly and a sharp bark when played loosely. Features a custom brilliant finish with laser engraved tribal artwork.

8" GX-8FXH 10" GX-10FXH

TRASH HAT

Benny Greb's signature trash hat

Created in collaboration with Benny Greb, this is a highly versatile pair of cymbals featuring a 12" sandblasted top over a 14" china. They have a distorted attack, which is perfect for simulating programmed drum sounds in a live setting. Use them as normal or auxiliary hi-hats, stacked multiple ways, or separate them to be played individually as a splash and china.

Trash Hat bottom

12"/14" GX-12/14TH

X-TREME STACK

Featuring a 12" splash top and 14" china-type bottom with four pairs of attached jingles, the X-treme Stack is a unique pair of cymbals that provides many sound options. Due to the width of the flange on the bottom cymbal and the bell shape of the top cymbal, these two stack together perfectly. When held together tightly, you can get a very crisp attack. When loosened, it replicates the sound of a sampled hand clap. The jingles add just enough sizzle underneath for extra character in the overall sound.

X-Treme Stack bottom

12"/14" GX-12/14XTS

DRUMBALS

Johnny Rabb's signature drumbals

What is a drumbal? A simple tool created from a cymbal. When applied to an acoustic snare drum, it transforms the sound into that of an electronic sample, drum machine snare, or industrial clap. It features a handle in place of the bell hole, and a soundwave edge to prevent airlock. Need to see it to believe it?

Search out 'Meinl Johnny Rabb Drumbal' on our YouTube channel for a quick demo.

FILTER CHINAS

Thomas Lang's signature chinas

Long before hole cut-outs were common in cymbals, Meinl introduced Thomas Lang's signature Filter Chinas in 2002. They feature specially sized and positioned holes to dry the sustain for a controlled, trashy effect. Using a unique blend of metals called FX9 alloy, these small-scale chinas were made to have a fast, sharp sound with a size and weight that made them perfect for stacking with other cymbals. The waved edge, alloy and holes reduce the sustain and volume, resulting in a china cymbal with a totally different effect and appearance.

Symphonic Cymbals

HANDCRAFTED MASTERPIECES

MEINL Symphonic cymbals are cast from B20 bronze alloy, hand-hammered, and lathed in the same Turkish foundry as the Byzance line. We offer five weights of hand crashes and a wide range of suspended cymbals in multiple sizes enabling you to cover all cymbal applications and requirements needed in symphonic and orchestral music.

Made in Turkey from B20 bronze alloy, hand-hammered into shape, narrow blade lathing, and traditional finish, with straps included.

TUNING FORK 440 HZ

The Tuning Fork is made in Germany and tuned precisely to the Standard Pitch of 440 Hz. The tuning fork features an ergonomic shaped grip for comfort.

CYMBAL BAGS & CASES

CARBON RIPSTOP CYMBAL BAG

Ultra-durable materials make this cymbal bag ideal for travelling through packed city environments to get to the gig or studio. The all black "carbon" exterior finish is made with strong 600D woven polyester ripstop. Adjustable padded backpack straps with ABS ladder locks and chest buckle let you wear the bag comfortably on your back to keep your hands free.

MCB22CR up to 22"

Main compartment fits 22" cymbals

Four padded sewn-in cymbal dividers

Hihat compartment fits 15" cymbals

Padded adjustable backpack straps

Strip of durable exterior loops to attach a carabiner or any other clip

Large exterior zippered pocket

Extra-wide EVA lining on the bottom for protection

RIPSTOP CYMBAL BAG

Ripstop fabric is both lighter and stronger than that of typical bags. With reinforced stitching on the backpack straps and an external 15" compartment, you can conveniently transport your cymbals hands-free.

MCB22RS up to 22"

Extra threads forming a cross-hatch pattern add protection against rips and tears.

PRO CYMBAL BAGS

These bags have an external 15" compartment, cymbal dividers and a shoulder strap.

MCB22 up to 22"

MCB24 up to 24"

PRO CYMBAL BACKPACK

This backpack design puts your 22" Professional Cymbal Bag (with added glow-in-the-dark logo) on your back.

MCB22-BP

GIG CYMBAL BAG

Ideal for casual gigs, this bag has an easy-grip handle and holds cymbals up to 22".

MSTCB22

PRO CYMBAL CASE

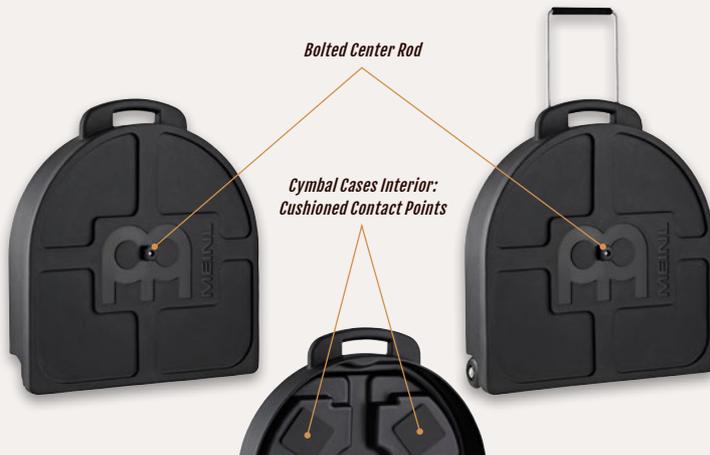

This 22" hard-shell case is designed for heavy-duty protection, with a through-case center bolt capable of securing approximately 9 cymbals.

MCC22

PRO CYMBAL CASE TROLLEY

A retractable handle and heavy-duty wheels let you pull your cymbals with ease instead of lifting and carrying them.

MCC22-TR

CYMBAL DIVIDERS

These soft dividers protect your cymbals against metal-on-metal damage in any bag or case.

MCD-14 2pcs 14" pack

MCD-22 2pcs 22" pack

STICK BAGS, HOLDERS & DRUMMER GLOVES

WAXED CANVAS STICK BAGS

These bags are designed for an understated and timeless style while being as practical as ever for any type of traveling drummer.

- MWSBK** Classic Black
- MWSGR** Forest Green
- MWSKH** Vintage Khaki

- Heavyweight, ultra-durable waxed canvas fabric*
- Four large interior pockets for drumsticks, rods, brushes and mallets*
- Three large interior accessory/tool pockets*
- Large exterior accessory/tool pocket*
- Floor tom hooks*
- Reinforced leatherette handle*
- Adjustable and removable shoulder strap*

CLASSIC WOVEN STICK BAGS

The Classic Woven Bags have all the tough usability of a touring bag with timeless good looks. They are designed for functionality and style for any type of traveling drummer.

- MCSBBK** Black
- MCSBGY** Heather Gray
- MCSBMO** Mocha Tweed

- Heavyweight, ultra-durable 6000 woven polyester with suede leather accents*
- Five interior pockets for drumsticks, rods and mallets*
- Four interior pockets for brushes, accessories and tools*
- Large exterior accessory/tool pocket*
- Floor tom hooks*
- Reinforced webbed handles*
- Adjustable and removable shoulder strap*

STICK SLING BAG

The Meinl Stick Sling Bag is a wider version of our best-selling Pro Stick Bags. Inside are eleven pockets of varying size for any kind of stick, mallet, rod, brush or accessory. An oversized exterior pouch is big enough to fit bulkier items. Carry the loaded bag with its sturdy, reinforced handles or use the adjustable body strap to sling the bag across your body and keep your hands free.

MSSB

PRO STICK BAG

With four sections for sticks and mallets plus a compartment for small tools and other drummer delights, this padded nylon bag features an external pocket, shoulder strap, and hang straps.

MSB-1 Black

DELUXE STICK BAG

Featuring plenty of room, clear-window pockets and two external pouches, keep all of your sticks, brushes, and mallets in one place. Has two handles plus a strap for easy carry and elastic cord attachments to hang from a drum or stand.

MDLXSB

COMPACT STICK BAG

This slim sized bag has two sections for four pairs of sticks or mallets making it perfect for saving space.

MCSB

DRUMSTICK HOLDERS

So you don't miss a beat when you drop a stick, clamp this holder to your hi-hat or cymbal stand so you can quickly grab a stick.

- MC-DSH** Black
- MC-DSH-JB** Jawbreaker

DRUMMER GLOVES

Want a better grip so you avoid stick slip and blisters? Available with or without fingers.

- MDG** M, L, XL
- MDGFL** Fingerless M, L, XL

DRUM RUGS

Meinl Drum Rugs are designed specifically for drummers and percussionists with tightly woven fabric that spurs and stands can dig into for a super strong grip. A non-slip rubber bottom keeps the rug from creeping as you play on any surface and is durable to prevent spurs from puncturing through. Each rug comes outfitted with a strap to roll up for easy transport.

Drum Rugs: 200 cm (6.5') x 200 cm (6.5')

Wide enough to accommodate a drum throne as well so all hardware legs are on the same surface. Ideal for covering the entire drum riser.

- MDRL-OR** Oriental
- MDRL-BK** Black

Large

Drum Rugs: 160 cm (5.25') x 200 cm (6.5')

Standard size to fit almost all common drum setups. Bag included.

- MDR-OR** Oriental
- MDR-BK** Black
- MDR-JB** Jawbreaker
- MDR-ZB** Zebra
- MDR-MA** Mandala – Designed by Aric Improta

Standard

NEW

Drum Rugs: 140 cm (4.6') x 160 cm (5.25')

Compact design is great for smaller setups. Bag included.

- MDRS-OR** Oriental
- MDRS-BK** Black

Small

E-Drum Rug: 150 cm (4.9') x 160 cm (5.25')

Quick-Set Markers and bag included.

- MDR-E** E-Drum Rug

With the E-Drum Rug it's possible to manage cables, plus ensure the rest of your kit and its pedals are securely set in place and will not move.

QUICK-SET MARKERS

Mark the position of your drums and hardware with the hook 'n' loop strips and circles.

- MQSM** 60 strips for hardware
10 circles for drums

PRACTICE CYMBALS, PADS & MUTES

PRACTICE HCS CYMBALS

Made for low volume playing, you can practice anytime without disturbing your family or neighbors. These practice cymbals are made from the original HCS brass alloy and have a unique hole pattern engineered by MEINL for an authentic sound and feel under the stick.

- P-HCS14H 14" Hi-hat
- P-HCS16C 16" Crash
- P-HCS18C 18" Crash

SPLIT TONE PAD

Anika Nilles Artist Series

The Split Tone Pad consists of three distinct surfaces that offer different feels and volume levels, along with a reduced rebound section on the back. It is designed to train more than a simple rudiment. With the Split Tone Pad, you can creatively mold your own systematic approach to advance your consistency, accuracy in unisons, hand independence and muscle strength. The power of this pad is in its ability to train your ears and mind for a better understanding of rhythms.

- MSTP 12" Three playing surfaces Bag included

PRACTICE PAD STAND

Ultra-compact and easily collapsible, the Meinl Practice Pad Stand is a lightweight, convenient option for practicing. Made from durable black powder coated steel, this stand reaches a maximum height of 37" (94 cm) with a minimum height of 19" (48 cm). Foldable legs make it easy to stow.

MPPS

A threaded 8 mm connector allows you to mount most pads.

DYNAMIC PEDAL PAD

Designed in cooperation with Benny Greb.

Advanced Bass Drum Pedal Practice Pad for Single or Double Kick that responds at any dynamic level and helps you develop control, independence and feel in addition to speed.

MDPP

Usable with any bass drum pedal

DYNAMIC PEDAL PAD ATTACHMENT

The Meinl Dynamic Pedal Pad Attachment is a pad surface replacement for the Meinl Dynamic Pedal Pad, which was designed in cooperation with Benny Greb. This pad attachment works for single and double kick practice.

MDPPA

KNEE PAD MOUNT

Designed in cooperation with Benny Greb.

The Knee Pad Mount allows you to strap most any threaded (8 mm) practice pad around your knee.

MKPM

Adjustable strap to secure in place

4" KNEE PAD

DRUM GEAR & SOUND DESIGN

DRUM HONEY & DRUM HONEY FISHBOWL

Meinl Drum Honey instantly transforms your drum sound into a warm and sweet tone with practically no effort. They can be removed from any surface as needed. Vital for session drummers and studio engineers as well as being used in houses of worship and venues where sound control is needed. Drum Honey is washable by using a drop of dish soap and water. Let them air dry (no direct sunlight), and their stickiness will recover. The Meinl Drum Honey is non-toxic.

The Meinl Drum Honey Fishbowl is filled with 16 packs of Drum Honey for easy, impulse purchase.

- MDH** Drum Honey
- VE16-MDH** Drum Honey Fishbowl

They also work great on cymbals

DRUM HONEY ASSORTMENT

The assortment includes 12 dampening gel pads:
 6 x small 1,52 cm (0.6")
 4 x medium 2,54 cm (1")
 2 x large 3,55 cm (1.4")

- MDHA** Drum Honey Assortment

DRUM HONEY SLAB

The Meinl Drum Honey Slab instantly transforms your drum sounds into a meaty, warm, and sweet tone with practically no effort. This extra-thick and large dampening gel pad has a rectangular shape measuring 3.54" (9 cm) long x 2.36" (6 cm) wide x 0.31" (0,8 cm) thick. It can be placed on any drumhead type and removed easily as needed.

- MDHS** Drum Honey Slab

Comes with storage box

MAGNETIC SUSTAIN CONTROL

Designed in cooperation with Benny Greb.

Easily control the sustain and dampen the tone of your cymbals, cowbell, or other instrument with the Meinl Magnetic Sustain Control. Simply adjust the effect by positioning the magnets on your instrument.

- MCT**
- 2pcs 16 x 4 mm - light damping
- 2pcs 16 x 9 mm - heavy damping
- With storage barrel

Simply place the magnets on the cymbal

SIZZLE RIVETS

Add some character to the sustain of your cymbal with these sizzling brass plated rivets. Simply insert the rivet into the hole, and bend the bottom end out.

- CY-RIVET-BR** Set of three brass plated steel rivets

These are designed to work for cymbals with existing holes. Drilling new holes in your cymbal will void the warranty.

CYMBAL BACON

The Meinl Cymbal Bacon adds a sizzle sound to any ride, crash, or effect cymbal in your set up by simply placing the chain on top of your cymbal. Easy to use on any cymbal stand and does not scratch or harm cymbal finishes. Available as a standard and heavy version.

- BACON** Standard version
- HBAC** Heavy version

Standard version

Heavy version

BYZANCE DRUM KEYS

The Byzance Drum Keys are eye-catching and functional. One side shows off the Byzance logo, while the other features the Meinl logo. Easy to tune with, the wing design is wide enough to make quick adjustments or head changes. A key ring hole allows you to attach the Byzance Drum key to your everyday set of keys. Available in antique bronze- and antique tin plated finish.

- MBKB** Antique bronze plated finish
- MBKT** Antique tin plated finish

Back

MIKE JOHNSTON ARTIST SERIES GROOVE BELL

The Meinl Mike Johnston Artist Series Groove Bell was developed to offer drummers a cowbell that sits perfectly in the mix of a band while providing the percussive spark required in their grooves. Included are two magnets (one small & one large, based on Benny Greb's Magnetic Sustain Control idea) that dampen the sustain and muffle unwanted ring. The Groove Bell is highlighted with a vintage steel finish.

MJ-GB

AJUCH BELLS

Meinl Ajuch Bells are handcrafted from cast brass bells and are available in three sizes for various pitch and tone. Each rope is hand tied and features a solid brass hook to secure the bells onto any hihat, cymbal, drum, or stand. Canvas bag included.

- MABS** Small
- MABM** Medium
- MABL** Large

Small Medium Large

BACKBEAT PRO TAMBOURINES

Featuring a brass ring made from Meinl Cymbal alloy with brass jingles attached, any drummer can add a tambourine effect to a snare backbeat or floor tom rhythm.

- BBP13** 13" in diameter
- BBP14** 14" in diameter

BENNY GREB ARTIST SERIES HIHAT TAMBOURINE

True to his signature cymbals, the Benny Greb Artist Series Hihat Tambourine features sand blasted jingles that have a dry, vintage sound and unique matte appearance. The eight pairs of brass jingles produce a mellow, yet edged 'ching' effect that will lift any groove.

HTHHBG

CHING RINGS

Incorporate a 'ching' into your grooves by placing one of the three different Meinl Ching Rings directly on your cymbals!

- CRING** 5 pairs of stainless steel jingles, steel ring
- DCRING** 5 pairs of stainless zinc jingles, steel ring
- SCRING** 6 pairs of stainless steel jingles, foam ring

SUPER FLEX HIHAT TAMBOURINE

The highly responsive tambourine is made with a flexible and lightweight Mylar frame that contours to the profile of your cymbal. This focuses all energy on the jingles, fully activating them to give you outstanding hihat foot tambourine response without a heavy, lagging feel. Equipped with ten pairs of stainless steel jingles that deliver a bright sound with plenty of volume to shine through the mix. Great for live or studio use.

SFHHT

HARDWARE

CYMBAL HOLDERS

Instead of getting another cymbal stand, use one of these arms with a Meinl Multi Clamp (not included) to add a cymbal or percussion piece to your kit.

- MC-CY S-shaped
- MC-CY1 S-shaped, long
- MC-CY2 Z-shaped

CYMBAL STACKERS

Double up the cymbals on any one of your stands with a short or long stacker.

- MC-CYS 6 mm thread, long version
- MC-CYS8 8 mm thread, long version
- MC-CYS8-S 8 mm thread, short version

MULTI-CLAMP FOR STANDS

Attach a cymbal or tom arm to any stand with the Meinl Multi-Clamp. This two-sided clamp is adjustable to fit tubes or stands measuring 13 mm to 34 mm in diameter, accommodating most hardware pieces. Made from solid aluminum and durable synthetic thumb screws.

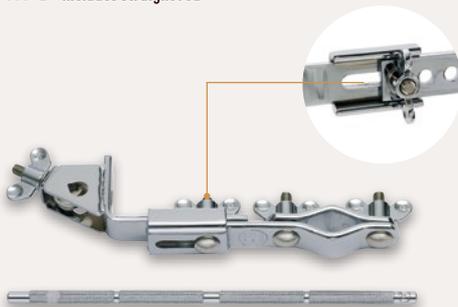

PMC-1

MULTI CLAMP, ONE MOUNT

With this length-adjustable clamp and rod you can position a timbale, cowbell, block or mountable tambourine anywhere within your set-up.

MC-1 Includes straight rod

DOUBLE EXTENSION ARM

Attach a cymbal stack, bongo, or another accessory to any stand with the Meinl Double Extension Arm. It is length adjustable, attaches to any hardware tubing, and is fully adjustable which allows you to fine-tune your angles. Its heavy-duty chrome plated steel construction safely holds heavy items.

MDEA

X-HAT CYMBAL STAND ADAPTER

Instantly modify any 8 mm threaded cymbal stand into a fixed X-Hat stand. The adapter simply screws on the cymbal stand allowing to add a pair of hihats or a cymbal stack whenever is most desired. Clutch is included.

MXHA

X-HAT AUXILIARY HIHAT ARM WITH CLAMP

Add a pair of hihats or a cymbal stack to your drum set up with this multi-adjustable attachment.

MXH

Tension adjustment

CYMBAL ATTACHMENT

Add another cymbal to your set-up with this multi-clamp and boom-arm combo.

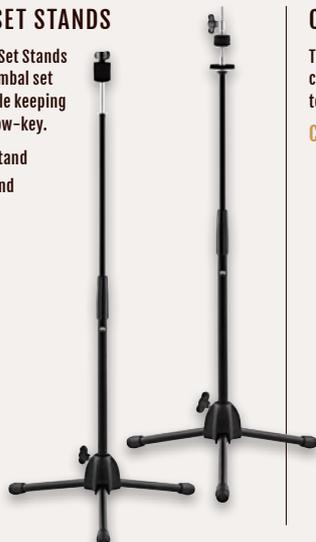

MCA

CAJON DRUM SET STANDS

The Meinl Cajon Drum Set Stands allow you to build a cymbal set around your cajon while keeping your stage footprint low-key.

- CCS Cajon Cymbal Stand
- CHS Cajon HiHat Stand

CAJON MICROPHONE STAND
