

2026

Music is an essential part of early childhood development

Learning an instrument means learning for life. Making music in kindergarten, or at home at an early age, makes it easier for children to learn a new instrument later on. NINO® Percussion gives children the possibility to make their first contact with musical instruments, starting at an early age of 3 years.

Early childhood development includes encouraging children to live out their natural musicality. Playing an instrument helps them to gain a bunch of new skills, such as hand-eye coordination, fine and gross motor control, concentration, and of course a sense of rhythm.

NINO® Percussion specialized on rhythm, shaker, and classroom sets for musical programmes in kindergarten, schools, and other educational institutions. Those sets are flexibly combinable. The colored buttons allow you to learn about the group size per set:

Small groups: max. 6 kids

Medium-sized groups: max. 16 kids

Large groups: more than 16 kids

NINO® Percussion hand percussion, drum circle and sound instruments are instruments for the whole family. They look good in the living or the children's room, are easy to storage, and most of them can be space-sparingly taken on a family trip. Nowadays, there are tons of good books and tutorials, that allow parents to easily learn an instrument with their children.

NINO CAJON PREPARATION

Before you start playing on a NINO Cajon, you should follow these steps:

- 1** Apply the adhesive stickers to your music stool that come with every NINO Cajon. In the diagram on the right, you can see where each symbol should be placed on the Cajon to hit the tones optimally.
- 2** We have already printed our helpful rhythm bar for you on the inside. Cut out the rhythm bar along the marked line and place it in front of you on the floor so you can easily see it.
- 3** To simplify drumming, we have developed our own notation system consisting of five musical symbols. You will also find these symbols on the inside. Cut them out so we can start playing right away.
- 4** Once you have completed steps 1-3, you are ready for the first rhythm exercises.

We wish you lots of fun drumming!

Our system of notes

To simplify the game, we have developed our own notation system consisting of five basic symbols that represent different sounds.

The blue hand symbol represents the bass. It produces deep tones when struck.

Striking the red hand symbols at the top edge produces bright, sharp tones known as snare.

This symbol represents shout. Here, shout YEAH! in rhythm. You can also shout HEY, YES, OLE!

The orange symbol with clapping hands indicates that you should clap your hands.

This symbol indicates a pause. Put your finger to your lips and say Pssst for best effect.
